

## BSA Names of Current & Former Local Councils

259 current Councils (250 official Councils +9 sub-Councils)

1754 former names (1747 former Councils +7 former BSA regional/national identifiers)

4 unknown + a number of higher numbers that may never have been assigned

At first local Councils were identified by name, which became clumsy as the number of Councils increased into the hundreds, and some Councils chose duplicate names. BSA began assigning Council ID numbers in the mid 1940's, and by about 1960 had adjusted the numbering system to be alphabetical by state (meaning that Council #1 is NOT the oldest Council). The original numbering of local Councils ran from 1 through 640. Numbers from 641 through the 700's were later used for newer Councils, and other numbers have sometimes been re-issued to unrelated Councils. Numbers 641 through 643, and then numbers in the 800's were assigned to overseas Councils (although a handful of 800-series numbers were assigned to regular Councils in 1929, plus 850 was used for a short-lived "federated" Council). Numbers in the 900's were used for regional & national Councils.

The term 'District Council' was used until the 1920's much in the sense that 'Area Council' has always been used (no relation to districts as sub-divisions of Councils).

This list does not attempt to include early un-numbered Councils. Hundreds of early Councils went in and out of existence, and the history of most current Councils is often complex.
